PROGRAM OVERVIEW

Whether you're looking to launch your career in technology or simply test the waters, Axial have the right Web based sample program for you. In this course, you'll learn all about becoming a web developer, from the responsibilities that a web developer performs on a day-to-day basis to the set of skills that you'd need to succeed in such a role.

And of course, you'll also get your hands dirty with some basic code:

We'll introduce you to the fundamental building blocks of the web and make sure you leave this course having learnt the basics of what is required to be a part of this fantastic industry.
